

Renovation Needs for MST

Note: This plan is subject to change based on programming phase of project.

1. The additional space to add 6-8 classrooms for program expansion/reconfiguration of classrooms.
 - a. Automotive Technology must meet NATEF standards
 - b. Pre-engineering capstone classes need to be added
 - c. Health Science Technology Education needs an additional teacher/class/lab
 - d. Culinary Arts/kitchen, dining room update and 2 classrooms
 - e. Cosmetology Program space reconfiguration and equip for cosmetology
 - f. Manufacturing Technology Program-machining, welding, and technology
 - g. Future Educator's Academy Program addition
2. The upgrading of existing classrooms and equipment, some original to the building in 1982. Upgrade building ability for new technology.
3. Reconfigure the under-utilized space.
4. Expand parking areas to accommodate 100 more cars.
5. Move the main office area to the front of the building for security and accessibility for visitors.
6. Meeting area needed for teachers/students and graduation ceremony.
7. The classroom space for the automotive/construction classes needs to be near their work area.
8. Career clusters need to be grouped together in the building wings.
9. The movement/space renovation for MCTV television studio.
10. Reconfigure the office space needed for the adult education program so that it has a separate entrance near the door.
11. The PASS program needs to have its program together/possible expansion beyond the facility to the portables area.
12. Create storage space outside for cost efficiency.
